BURN PERMIT APPLICATION

APPLICATION	NO
-------------	----

SECTION I BURN PERMIT APPLICATION POLICIES

These policies were developed for safety and the prevention of air quality degradation. The timeliness of a permitted burn allows for appropriate inspections and notification to other appropriate fire safety personnel. If the applicant does not intend to begin burning on the designated date, they need to notify the Tribal Permit Office one day prior to the expected ignition date. Failure to notify of changes in burn dates will result in the applicant being charged for the burn period set forth in the permit. With the exception demolition by fire, burning of prohibited materials is not allowed on the Swinomish Reservation. The uses of burn barrels are prohibited on the Swinomish Reservation.

- 1. All outdoor burning within the exterior boundary of the Swinomish Reservation, where the entire burn pile is greater than a 4-foot by 4-foot area, is prohibited without a Tribal Burn Permit. However, small clean yard waste only fires (less than 4'X4') must be at least 50 feet from any existing structure and woody vegetation, and must have a garden hose to capable of extinguishing flames in less than 5 minutes. These small fires must be attended at all times while burning and are allowed during daylight hours only. Tribal ceremonial burning is exempt.
- 2. All materials other than clean woody debris is prohibited. Paper can only be used to start a fire. The use of fans to accelerate burning is encouraged.
- 3. An approved water source shall be available at all times during burning. The responsible tribal official will approve the water source prior to issuance of permit.
- 4. No fire shall be left unattended until fire is completely extinguished.
- 5. Burning shall cease if it is determined by the Responsible Tribal Official to be creating a nuisance (noxious smell, excessive smoke, and or other air quality problems) or a threat to personal safety or property.
- 6. Applicants must state begin date and time, and expected duration of burn. Burn permits are valid for a period up to 7 days unless otherwise stated in the permit. If there are any changes in the expected begin date, it is the responsibility of the applicant to notify the Permitting Office to change the begin date. Otherwise the applicant will be charged for the dates shown on the permit.
- 7. Applicant is required to notify Skagit County Fire Dispatch Center at <u>360-424-8192</u> one hour prior to ignition of slash
- 8. Applicant should submit application at least three working days prior to the date that the burn is to be commenced.

SECTION II APPLICANT INFORMATION Be sure to also complete Section VI (signature) to complete permit application form. <u>Fees must be submitted at time of application.</u>

Name:			
Site Address:			
Mailing Address (if different): Parcel #			_
